WHO WE ARE

Turning Creative Concepts Into Enduring Spaces.

EGR Decor is dedicated to creating decorative panel solutions that bring together design innovation, premium performance, and sustainable thinking. As part of the EGR Group, the brand delivers a curated portfolio of panels that meet the demands of today's architects, designers, and fabricators.

With collections such as **StyleLite**, **TruNatur**, and **StyleLex**, EGR Decor offers finishes ranging from high-gloss and matte to tactile timber-inspired veneers —equally at home in residential kitchens and luxury bathrooms as in commercial fit-outs, bespoke furniture, and alfresco outdoor settings.

For architects and designers, EGR Decor provides more than just panels it delivers a design language that balances timeless elegance with modern practicality, helping shape interiors that are beautiful, durable, and built to last.

Sustainability at the Core

Recyclable materials · Responsible sourcing · Low-emission manufacturing

WHY EGR DECOR

01 Design Versatility

From high-gloss whites to deep matte charcoals and natural timber veneers, the range covers every aesthetic direction —contemporary, classic, and everything in between.

02 Engineered Performance

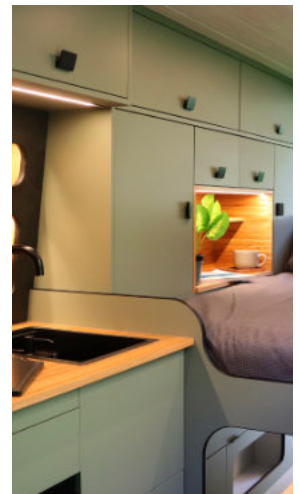

Every panel is built for ease of fabrication and long-term durability. Consistent thickness, stable substrates, surfaces designed for standard joinery processes.

03 Waterproof Range

StyleLex is purpose-built for covered outdoor, wet area, and high moisture environments including alfresco kitchens, bathrooms, laundries, and flood-prone spaces.

04 Sustainable by Design

Recyclable materials, responsible sourcing, and low-emission manufacturing are embedded in every product development cycle.
